

Dot Ai Launches Dot Matrix 3.0, Expanding Enterprise-Scale Asset Intelligence Across Industries

October 15, 2025

Latest platform release delivers modular, multi-tenant capabilities that enable scalable asset intelligence for partners in healthcare, construction, energy, entertainment, and defense

LAS VEGAS--(BUSINESS WIRE)--Oct. 15, 2025-- [Dot Ai](#) (Nasdaq: DAIC) (“Dot Ai” or the “Company”), an IoT and AI-based SaaS company at the forefront of Asset Intelligence technology, today announced the launch of Dot Matrix 3.0, the latest evolution of its Asset Intelligence platform. The release introduces a modular, multi-tenant architecture designed to deliver in-process visibility and secure asset management across a wide range of industries and environments.

With Dot Matrix 3.0, distributors, integrators, and operators can deploy and manage complex, multi-site programs from a single platform – accelerating rollout times, reducing cost to serve, and improving control over assets, materials, and personnel.

“Dot Matrix 3.0 was built to serve the realities of connected operations – modular by design and ready for any environment,” said Ed Nabrotzky, CEO of Dot Ai. “Whether it’s ensuring secure access in healthcare facilities, managing materials in construction and energy projects, supporting readiness across defense and government operations, or enabling smarter logistics for entertainment venues, this release gives organizations a flexible foundation for in-process intelligence at scale.”

Dot Matrix 3.0 extends the company’s foundation for enterprise growth following recent milestones, including [new hardware platform orders and expanded manufacturing operations](#) in Puerto Rico. Together, these advancements position Dot Ai to meet accelerating global demand for integrated hardware, software, and AI-driven analytics that enhance efficiency, safety, and quality across industries.

The 3.0 platform introduces secure multi-tenancy, continuous integration and delivery (CI/CD), and advanced access controls – empowering partners to manage multiple customers, sites, and use cases with auditable precision. It supports a full spectrum of applications, from tracking equipment and materials in construction, mining, utilities, and energy, to monitoring movement and access in healthcare systems, entertainment venues, and government facilities, and providing in-process data feeds to automated guided vehicles, mobile robots, and drones.

Dot Matrix 3.0 is available immediately to existing partners and customers through the Dot Oracle console.

About Dot Ai

At the heart of the technological revolution in asset management and security lies Dot Ai, a trailblazing SaaS service that is defining Asset Intelligence for smart supply chain operations. By harnessing the power of real-time IoT tracking technology and AI-enhanced analytics, Dot Ai stands at the forefront of innovation, offering patented solutions that are not just advanced but transformative. Through relentless research and development, Dot Ai has engineered a suite of technologies that empower organizations to not only streamline their logistics and supply chain processes but also bolster operational security to unprecedented levels. Leveraging state-of-the-art AI engines, cutting-edge 5G RF and BLE technology, and seamless API integrations, Dot Ai transcends traditional boundaries, offering real-time asset visibility and predictive analytics that integrate effortlessly with existing infrastructure. This is not just technology; it's a vision for a more secure, efficient, and connected world.
